

Take control of your health, at your own pace

HumanaVitality is changing its name to Go365™ on January 1. With the new name comes some exciting features we think you're going to love!

Take advantage of these innovations to the program, but take action at your own pace. That's the whole point of Go365 - to help you engage in your health when, where, and how you want.

- **Redesigned member experience**, with a more user-friendly website. Use the same username and password you created for HumanaVitality on the new Go365.com site.
- **Improved Points and Bucks structure**, making it easier to tailor the program to your personal health goals. You no longer have to calculate a discount in the Go365 Mall, the price is listed for you. You can also earn Bonus Bucks, and the maximum limits are increasing!
- **Increased member control**, allows you to choose how you progress through the program, and allows you to engage whether you're just starting out or already active.
- **More fun!** Including monthly jackpot drawings for all members and dependents over age 18 (not just the plan holder), surprise rewards, and double Bonus Bucks!

So get your username and password ready for the exciting new features of Go365 and more fun ways to stay healthy in the new year!
